

*Meet*

**Ryan Windsor**

After graduating with honorary degree at University of the West of England in Bristol, Ryan started his career in financial services as a paraplanner. This proved to be very successful foundation to launching the second stage of his career as a financial adviser with Station Financial.

His specialist subjects are Pensions and Investment advice, but Ryan doesn't confine himself to these areas, as his clients who are based predominantly in Wiltshire and Dorset have a wide range of needs.

He is married with 3 young children who account for most of Ryans spare time. The whole family can be often seen on just two bikes with "tag alongs" and crossbar seats providing the additional seating

Ryan enjoys hill walking and rock climbing, he also enjoys trekking, where his longest trek to base camp Mount Everest was also a romantic one, on Kala Patthar with Mount Everest in the background he proposed. It has been downhill ever since!
